

Learn how to win gold and diamonds

In Free Fire you don't just want to win, you want to show off unique weapon skins and features. To do this, you need to accumulate gold and diamonds by playing or paying with real money. Due to the amount of options, events and menus, many of us may feel confused.

Discover the methods of winning gold and diamonds, and how to spend them to unlock various items in the game. We have compiled the 5 ways to win gold and diamonds, supported by images to help you in the best possible way.

Play games

We will get a sum of gold just for participating, so entering a game will always be a good time invested. If you want to earn more money, it's good to practice and work hard, as the game rewards survival time, final position, eliminations and headshots. In addition, by playing games you will be able to complete daily challenges.

There are a variety of different challenges, especially if you have purchased Elite Pass (only unlocked with real money). When you complete a challenge, you'll receive one or more explosive medals. The tasks are usually to play a certain number of minutes, use specific weapons, reach a specific number of eliminations or end up in high positions.

Explosive medals are used for the Fire Pass. On this site, you'll unlock items as you get more medals. If you purchase Elite Pass, you'll get better rewards in the form of gold, diamonds and even skins. Otherwise, you can limit yourself to the Free Pass, but the rewards will be much scarcer.

Enter the game every day

This is a simple and safe way to earn gold, but in no case will we get diamonds just for entering. The daily rewards always come out when you enter the game and, as a general rule, you will get 350 gold each week. It's a very easy way to accumulate this virtual money, so try to get into Free Fire every day.

Open free boxes and participate in Gold Royale

Every day we'll have a free box in the game store. To find this box, go to the Normal section and click on the Offer of the day section.

There is also the famous Luck Royale, which we can access from the main menu. There we test our luck. However, you can participate in Gold Royale with so-called normal vouchers or by spending gold. If we only use normal vouchers for Gold Royale, the first two rewards for weekly spins usually contain 100 gold coins each. To purchase these rewards, click on the red colored bags to the right of Gold Royale.

Finally, you'll sometimes get Lucky Draw, which is just an extra prize the game awards at random. Press one of the three cards and you'll get another reward with minimal effort. It usually gives little gold, and it's also possible to get memory fragments, among other items.

Receber prêmios sazonais

Todos nós gostamos de ser recompensados pelos nossos esforços! Ao jogar e se qualificar para o modo de classificação Free Fire, você receberá recompensas no final de cada temporada. Só por fazer parte dos qualificadores você receberá 1000 de ouro, mas se você jogar mais e subir na liga, os prêmios serão muito mais suculentos.

Comprar diamantes

Ninguém gosta de ter que gastar dinheiro, mas, exceto para Fire Pass, esta é a única outra maneira de conseguir diamantes. Se você usar qualquer outro método ilegal você será banido do Free Fire para sempre.
